

Team Communication & Collaboration

Unified Communications

Connect with customers and co-workers from any device, anywhere required. Synchronize your communications across your desk phone, PC, mobile, and more with the Connect App.

Team Collaboration

Collaborate with co-workers and teams using any device. Chat, file sharing, desktop sharing, and video are all integrated into the Connect app and available for each user.

Mobile & Tablet App

Take your office and your extension anywhere with the Connect Mobile app featuring fully integrated audio and video calling, voicemail, chat, file sharing, and more.

Video & Screen Sharing

Meet and work more effectively with video conferencing and screen sharing via your PC or Mac. Launch a quick video call and share your screen to review documents, collaborate, and get work done

Modern Business Communications

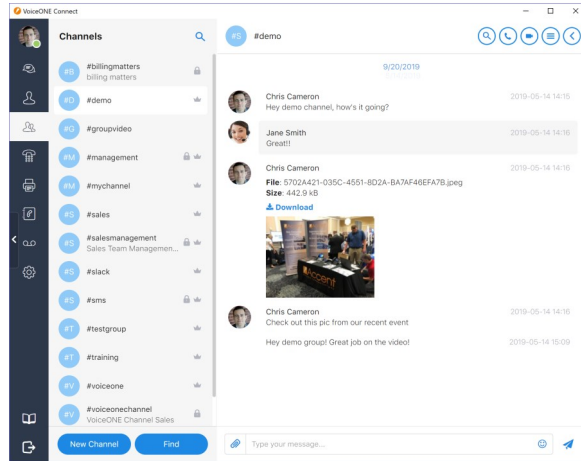

The days of your phone system providing simple features such as voicemail, call forwarding, and conference calling are long gone. The VoiceONE Connect App allows you to communicate with customers and teammates anywhere and everywhere required. Be accessible on your desk phone, mobile, tablet, or desktop with the click of a button. Place and receive calls, chat, share files, collaborate across teams and connect all from the device of your choosing.
